Subject:- Operational Guidelines for the Scheme for Creation of Infrastructure for Agro-processing Clusters under KISAN SAMPADA YOJANA (KSY).

Government of India (GOI) has approved a new Central Sector Scheme – KISAN SAMPADA YOJANA (KSY) for the period upto 2019-20 to be implemented by Ministry of Food Processing Industries (MoFPI). Under KSY, a new Scheme for Creation of Infrastructure for Agro Processing Clusters has been approved. After detailed interaction with the stakeholders, the operational guidelines for implementation of the Scheme for Creation of Infrastructure for Agro Processing Clusters have been formulated.

The operational guidelines for the Scheme has for Creation of Infrastructure for Agro-processing Clusters are attached for the information of all the stakeholders and public at large. These operational guidelines will be applicable to the proposals to be invited by this Ministry in future under this Scheme.

Subject:- Operational Guidelines for the Scheme for Creation of Infrastructure for Agro-processing Clusters

1. Introduction:

1.1 The Ministry has formulated the Scheme for Creation of Infrastructure for Agro Processing Clusters as a sub-scheme of Central Sector Scheme - “Kisan SAMPADA Yojana” coterminous with the 14th Finance Commission cycle.

1.2 The scheme aims at development of modern infrastructure to encourage entrepreneurs to set up food processing units based on cluster approach. The scheme is to be implemented in area of horticulture / agriculture production identified through a mapping exercise. These clusters will help in reducing the wastage of the surplus produce and add value to the horticultural / agricultural produce which will result in increase of income of the farmers and create employment at the local level.

1.3 There are certain capital intensive common facilities which are required to be created by food processing units irrespective of nature of their processing. These capital intensive facilities like cold storages, blast freezers, specialized packaging, IQF, warehousing etc if developed as common facilities, will encourage entrepreneurs to set up more food processing units. The nature of operation of the food processing units also require developed basic enabling infrastructure to take care of continuous process, water supply, effluent treatment and clean surrounding, etc. There is a lack of such modern infrastructure in the country which is hampering the development of food processing sector. If this infrastructure is made available with the financial support from the government, there is a potential of developing food processing sector with much higher speed than it is today.

2. Objectives of the Scheme

The major objectives of the scheme are:

i. To create modern infrastructure for food processing closer to production areas.
ii. To provide integrated and complete preservation infrastructure facilities from the farm gate to the consumer.

iii. To create effective backward and forward linkages by linking groups of producers / farmers to the processors and markets through well-equipped supply chain.

3. Salient Features of the Scheme

3.1. At least 5 food processing units with an aggregate investment of minimum Rs. 25 crore will be set up in the Agro-processing cluster. These units may be setup by the promoters and associates of Project Execution Agency (PEA) and by other entrepreneurs. The investment in these units will not be eligible under this scheme.

3.2. Food processing units will be set up simultaneous to the creation of core infrastructure in the cluster. The core infrastructure facilities being developed in the agro-cluster shall be as per the requirement of food processing units to be set up in the cluster or as per the available raw material for processing in the area.

3.3. Agro-processing clusters may be developed by:

- the promoter(s) willing to set up own units in the cluster and also allow utilization of common infrastructure to other units in the area;
- the promoter(s) willing to develop common infrastructure for use by the units to be set up in the food processing cluster by other entrepreneurs;
- the promoter(s) willing to develop common infrastructure in the existing food processing clusters

However, lead promoter shall setup at least one food processing units in the cluster with an investment of not less than Rs. 5 crore.

3.4. The extent of land required for establishing the agro-processing cluster would depend upon the business plan of Project Execution Agency (PEA), which may vary from project to project. At least 10 acres of land for the project shall be arranged by the PEA either by purchase or on lease of at least 50 years. The GOI grant shall not be used for procurement / purchase of land.

3.5. Preference will be given to setting up agro-clusters in agri-horti clusters identified by Central / State Governments, if any.

3.6. It is expected that on an average, each project may have around 5-10 food
processing units to be set up in each Agro-processing cluster with an employment
generation potential, both direct and indirect of about 500 to 1500 persons. This
employment generation will provide livelihood to about 6000 persons based on an
average household size of 4 members. However, the actual configuration of the
project may vary depending upon the business plan for each Agro –processing
cluster.

3.7. The food processing industries that make food products fit for human and animal
consumption (except alcoholic products) may be permitted to be set up in
these clusters. Packaging facilities of food products as ancillary to the food
processing industries (proposed to be setup in the cluster) may also be
allotted land in the agro cluster.

4. Components of the Scheme:

4.1. The scheme will have following components:

(i) **Basic enabling infrastructure:** It will include site development including
development of industrial plots, boundary wall, roads, drainage, water supply,
electricity supply including power backup, effluent treatment plant, parking
bay, weigh bridges, common office space etc. However, the cost of basic
enabling infrastructure not exceeding 40 percent of the eligible project cost
would be eligible for grant purpose. The cost of any basic enabling infrastructure
outside the boundary wall of the agro cluster will not be eligible for grant
assistance.

(ii) **Core infrastructure:** The common facilities will be based on the needs of the
units which will be set up in these clusters. The common facilities of capital
intensive nature may include like food testing laboratory, cleaning, grading,
sorting and packing facilities, steam generation boilers, dry warehouse, cold
storage, pre-cooling chambers, ripening chambers, IQF, specialized packaging,
other common processing facilities, etc.

The above mentioned facilities are only illustrative and the exact nature of facilities
may vary from project to project based on requirements of the units in the cluster and
availability of agriculture / horticulture produce in the catchment area of the project.
4.2. Any modification in the common facilities / core infrastructure after approval of the proposal will not be approved by the IMAC, unless request for modifications submitted with a compelling rationale and endorsed by the lending institutions.

5. **Pattern of Assistance**

5.1 The Scheme envisages grants-in-aid @ 35% of eligible project cost in general areas and @50% of eligible project cost in the North East States including Sikkim and difficult areas namely Himalayan States (i.e. Himachal Pradesh, Jammu & Kashmir and Uttarakhand), State notified ITDP areas & Islands subject to max. of Rs. 10.00 crore per project. The grants-in-aid will be credit linked but not back-ended. The eligible project cost will exclude cost of land, pre-operative expenses and margin money for working capital from the total project cost.

5.2 The registered value of the land would be taken as part of the total project cost. The GoI grant shall not be used for procurement/purchase of land. In case of land acquired by PEA on lease, such cost may not be part of project cost and may be considered part of operating cost.

6. **Project Execution Agency (PEA):**

6.1 Project Execution Agency (PEA) / organizations such as Govt. / PSUs / Joint Ventures / NGOs / Cooperatives / Self Help Groups (SHGs) / Farmer Producer Organizations (FPOs) / Farmer Producer Companies (FPCs) / Private Sector / partnership firm / individuals etc. will be eligible for financial assistance under the scheme.

vii. To maintain proper accounts of the project implementation and the maintenance of infrastructure and common facilities after commissioning of the project.

viii. Upload monthly progress report with pictures / photographs of site.

ix. Every PEA will publish the user charges/hiring rates for common facilities and lease rental rates / sale price for plots in agro-processing cluster on their websites and also on a board at the gate of the agro cluster for wider information of the prospective investors. Rate of plots in the Agro Processing Cluster will also be made available to Ministry of Food Processing Industries and State Government concerned for uploading on their websites.

x. PEA may sell / lease plots in agro-processing cluster to other food processing units. But the common facilities in the cluster cannot be sold or leased out. They can only be offered to units on rental basis.

7. **Eligibility criteria for PEA:**

7.1 The combined net worth of the promoter(s) should not be less than 1.5 times of the grant amount sought.
